STAR THEATRE

LULU A. DIETZ, Owner and Manager.

Two Shows Nightly at 7 and 8:45--Saturday Matinee at 3

Program for the week beginning Monday, September 2.

MONDAY AND TUESDAY

DOROTHY DALTON in a dare-devil story, entitled "LOVE ME." The tale moves from quiet Philadelphia to the roaring lumber camps of the west. On Monday the Hearst-Pathe news, and Tuesday the Mutual Screen Telegram.

WEDNESDAY and THURSDAY

A real treat for the kiddies all the way from ten to seventy years of age and over. TOM MIX, the rival of Doug Fairbanks for wild and woolly stuff. He is appearing in a story of the northwest mounted police of Canada, entitled "ACE HIGH." Wonderful woodland scenery and plenty of thrills. Burton Holmes travels.

FRIDAY AND SATURDAY

A new actor in Covina. He is J. STUART BLACKTON, one of the foremost ARTCRAFT stars, surrounded by an all-star cast in the wonderful love-story, "THE JUDGMENT HOUSE." Diplomatic intrigue, romance and spectacular battle scenes are distributed through this great film. Come and get acquainted with this magnificent actor. Also Lonesome Luke comedy.

While other theaters have closed their doors in surrounding towns, the patronage of the Star theater of Covina grows along with its ever-growing popularity. Tell your friends that no better programs are run in the best Los Angeles theaters than are to be found here every night.

COVINA GIVES GOOD MAJORITY TO HER LOCAL CANDIDATES

EAST END OF COUNTY IN FAVOR OF MORE DIRECT REPRESENTATION ON BOARD OF SUPERVISORS—HAMILTON IS STRONG WINNER WITH COGSWELL IN SECOND PLACE—GOVERNOR STEPHENS GETS SPLENDID MAJORITY IN VALLEY—THOMAS REED ELECTED JUSTICE—CONGRESSIONAL PACE IN DOUBT.

The eight home precincts in the Covina city and valley gave J. L. Matthews of Covina a splendid majority in the race for supervisor. In the district, John J. Hamilton, the incumbent, led the ticket by a good majority, with Prescott F. Cogswell considerably lower in second place, and the Covina candidate in third place. The vote for Matthews in Covina city and valley, and throughout the eastern end of the county was strong indication that the voters believe that an east-end representative should be elected, but the heavy vote lies in the west end, where Pasadena controls the majority.

Mr. Matthews was especially gratified with the splendid home support, and wishes to thank everyone who assisted in giving him the majority in this locality. He especially wants to express his appreciation to the one hundred and twenty-five ranchers and business men of the valley who assisted him on the campaign committee, and to the ladies who volunteered their assistance as election day workers.

The supervisory race was conducted along thoroughly clean lines, without personalities on the part of any of the three candidates. This leaves no regrets and a clean slate.

CONGRESSIONAL RACE.

The ninth congressional district will probably remain in doubt for several days, as the official count is very slow. It looks as if either Monteville Flowers of Monrovia or the incumbent, Charles H. Randall, might be the nominee on the Republican ticket. The count yesterday indicated that Flowers was in the lead. Odell of Pasadena made a very poor race, and Mushet and Reagan were not factors at all, excepting to take votes from the stronger candidates.

JUSTICE OF THE PEACE.

The election of Thomas B. Reed of Covina to the position of justice of the peace was accomplished by a very large majority over W. R. Johnson of Baldwin Park. The Covina people evidently

believe in electing a home man, and while Mr. Johnson's ability and fitness for the position was very generally conceded, it was a question largely of popularity and home support. The Baldwin Park precincts gave Mr. Johnson a very large majority. Attorney Reed succeeds Dailey S. Stafford, who relinquished the position to enter military service, and who is now at Camp Fremont.

FOR GOVERNOR.

Governor William D. Stephens was far and away the popular candidate in the valley, as was expected. His nomination is gratifying to the voters locally. Judge Bordwell received a surprisingly large vote, due to the large number of staunch friends made in this valley when he was judge of the superior court. The manner in which Governor Stephens swept the primaries is a strong indication that he will be re-elected in November.

FOR THE ASSEMBLY.

H. A. Miller of Covina, candidate for assembly, was slightly in the lead of E. R. Shepherd late yesterday afternoon in the counting. The returns were very slow in coming in, and nothing definite could be decided upon. The close vote in the district was one of the surprises of the campaign, as was also the case throughout Southern California. At the home of Mr. Miller yesterday afternoon, it was stated that the election was still in doubt.

ELLEN BEACH YAW RETURNS FROM TOUR

Madam Ellen Beach Yaw returned to her home in Covina Tuesday after a concert tour of some months in the East. Madam Yaw gave many Red Cross concerts, and the last concert given was at Ocean Grove, on the Atlantic coast, in the big auditorium seating 8000 people. Her impression of the difference between the East and the West in war work and activities is that there is much less confusion here in the west and that therefore we work more intelligently. Madam Yaw says she appreciates California more every time she comes back to it. One thing she noticed especially this time was the matter of the abundance of fruit here. In the east fruit is scarce and very high in price. Miss Georgiella Lay, who has been with Madam Yaw for several years as pianist, has returned with her and will establish herself in California as a teacher of music and lecturer on musical topics.

FUNERAL IS HELD

FOR L. D. SWARTWOUT

The funeral of L. D. Swartwout, brother-in-law of Tom Johnson of Charter Oak, was held on Tuesday at the funeral parlors on First street in Los Angeles. He passed away at his home in Pio Heights on Sunday, at the age of 62 years.

The funeral services were participated in by the Rev. J. W. Utter of the Covina Christian church, who was a pastor of Mr. Swartwout twenty years ago in Artesia. The deceased leaves a wife and daughter.

FUNERAL OF CHILD.

The little two year old child of Mr. and Mrs. W. A. Low of Irwindale avenue passed away on Sunday evening after a sickness of only a few hours. Funeral services were held at the home at 10 o'clock on Tuesday morning, and burial was at the Oakdale cemetery. Many neighbors and friends attended the services, which were conducted by the minister of the Holiness church of which the family are members.

CASH SYSTEM FOR COVINA GARAGES

Beginning September 1, all garages in Covina will go on a cash basis. One has been a cash business from the beginning, another recently adopted this method, and now all are conforming to the urgent suggestion made by the war industries board of the United States government. It is a significant part of the general and radical readjustment of all industries and business in the United States for the period of the war. In an advertisement in this issue, the firms making the announcement are the Reliable garage, E. G. Hotchkiss, proprietor; Webber garage, H. N. Webber, proprietor; Mission Garage, Emil Sedlacek, proprietor; and the Covina Garage and Machine Shop Association, a corporation of which O. F. Keeling is secretary. Included in the announcement is the Reynolds garage of Baldwin Park, W. K. Reynolds, proprietor. The step is taken through the cooperation of the members of the Pomona Valley Auto Trades Association, of which the Covina firms are a part, and has been directly handed down from the state and the national organizations, which are conforming to the urgent request of the national war industries board. That it is a wise move for economy, and that the people will accept it and receive the benefits of closer selling, is the firm belief of all garage men and dealers.

Placards announcing the cash system will be displayed in all of the Covina garages next week. The discarding of a large amount of bookkeeping, the escape from loss of bad accounts, and an ability to buy closer with cash, are some of the features of the new system that will appeal to the customers, the garage men believe. That almost every other industry and business is already on a cash basis is pointed out as a fact. And in the large cities and throughout the northern part of California as well as all through the middle-west and east, the cash system has already been adopted. Southern California garages, and especially the garages of the Pomona and Covina localities, are the last to adopt this system.

RICE EXONERATED OF FATAL SHOOTING

City Marshal Roy Rice of Imperial City, formerly a resident of Covina, and well known here, was exonerated by a jury this week in the matter of the fatal shooting of the keeper of a questionable resort in that city.

Details are vague, but it is understood that the man killed attempted to kill the marshal as he entered the place where the officer thought liquor was being illegally sold. A bullet from the marshal's revolver killed the keeper of the place. Rice and his brother, Emmett Rice, are both well known in the Covina valley.

Mr. Merriam Coman, son of Mr. and Mrs. C. W. Coman, with his wife and little son, Ted Coman and Eugene Ames are spending some time at Forest Home in the San Bernardino mountains.

COAST ARTILLERY IS ON ITS WAY

The Fifty-Fifth Coast Artillery ammunition train left California last Saturday night, taking with it sixteen Covina young men. Where they are going is not known. In this contingent are the following members of Company D: Ethan Seefeld, Charles Gray, Ward Melton, Oscar Anderson, Albert Anderson, Alva Hibsch, Harold Cone, Robert Cone, Frank Jessup, C. H. Peter, Erick Loughrin, Harold Potter, David Miller, George Graham, William Fuquay, Edward Pilemeyer.

NEW GENERAL MANAGER

FOR ORANGE DISTRIBUTORS

C. P. Earley, formerly of Redlands, but of recent years New England agent arrived from the east last Saturday, and will at once assume active management of the Mutual Orange Distributors, with head offices in Redlands. He relieves Arthur Gregory who recently announced his resignation as general manager.

In an interview yesterday Mr. Earley said, "I have just come across the continent which is more interested just now in the big business of war than anything else, but business in general is extremely active. Never before have there been such prices for all commodities. Labor is highly paid everywhere, especially in the war manufacturing centers, and they all spend money freely. At the same time many are saving a reasonable amount for a rainy day and they are indeed quite thrifty. The laborer is the big consumer of oranges, even under the present abnormal prices. Big prices is now a national habit and I believe we will see high prices continue for some time to come, and I have every reason to believe that the growers may expect good prices for their oranges the coming season."

WAR SAVING PROGRAM

NEXT SUNDAY EVENING

A week from this coming Sunday night there will be a war savings stamp program at the union meeting of the churches. Rev. C. A. Foreman, who has been appointed president of the local war savings societies in the place of Dr. C. T. Murphy, who has moved away, says that the program will be a very interesting one, as the Los Angeles committee will send a number of first-class singers and instrumentalists. The program in full will be printed next week.

QUICK WORK SAVES PACKING HOUSE

The efficiency of the big fire engine was again demonstrated on Saturday night shortly before 11 o'clock, when a brick fire was discovered on the outside of the Sutherland Fruit Company packing house near the Southern Pacific depot. The fire had evidently been caused by some tramp's nest beneath the outside platform or in a pile of boxes. People arriving first on the scene found the fire burning briskly in a bunch of packing boxes.

Before the engine arrived the fire had burned the platform and was sweeping up the side of the old wooden building. Everyone was of the unanimous opinion that the old shell would burn to the ground. But in five minutes after the heavy stream was thrown from the pumping engine, the largest amount of the fire was out. It burned a part of the roof and the sides of the building, but did not get into the interior to do any harm. The firemen did a fine piece of work, as the building threatened the whole line of wooden buildings in that locality.

CRUELTY AND LUST WEAPONS OF HUNS

Conquered Peoples Shamefully Treated for Advantage of the German State.

Prussian Officers Callously Tell How Starvation and Abuse Are Made to Serve Their Purpose—Captives Women Made Slaves.

This I have seen. I could not believe it unless I had seen it through and through. For several weeks I lived with it; I went all about it and back of it; inside and out of it was shown to me—until finally I came to realize that the incredible was true. It is monstrous, it is unthinkable, but it exists. It is the Prussian system.—F. C. Walcott.

No more graphic description of the ravages of the German soldiery upon the civilian population of invaded countries has been given than is contained in the brief and simple statements of F. C. Walcott, now connected with the United States food administration, who was assistant to Mr. Hoover while America was feeding Belgium, Poland and northern France. In one of these statements Mr. Walcott says:

Even now I find it hard to describe in comprehensible terms the mind of official Germany, which dominates and shapes all German thought and action. Yet it is as hard, as clear-cut, as real as any material thing. I saw it in Poland, I saw the same thing in Belgium, I heard of it in Serbia and Rumania. For weeks it was always before me, always the same. Officers talked freely, frankly, directly. All the staff officers have the same view.

Let me try to tell it, as General von Kries told me, in Poland, in the midst of a dying nation. Germany is destined to rule the world, or at least a great part of it. The German people are so much human material for building the German state, other people do not count. All is for the glory and might of the German state. The lives of human beings are to be conserved only if it makes for the state's advancement, their lives are to be sacrificed if it is to the state's advantage. The state is all, the people are nothing.

Conquered people signify little in the German account. Life, liberty, happiness, human sentiment, family ties, grace and generous impulse, these have no place beside the one concern, the greatness of the German state. Starvation must excite no pity; sympathy must not be allowed, if it hampers the main design of promoting Germany's ends.

"Starvation is here," said General von Kries. "Candidly, we would like to see it relieved; we fear our soldiers may be unfavorably affected by the things that they see. But since it is here, starvation must serve our purpose. So we set it to work for Germany. By starvation we can accomplish in two or three years in East Poland more than we have in West Poland, which is East Prussia, in the last hundred years. With that in view, we propose to turn this force to our advantage."

"This country is meant for Germany," continued the keeper of Starving Poland. "It is a rich alluvial country which Germany has needed for some generations. We propose to remove the able-bodied working Poles from this country. It leaves it open for the inflow of German working people as fast as we can spare them. They will occupy it and work it."

Then with a cunning smile, "Can't you see how it works out? By and by we shall give back freedom to Poland. When that happens Poland will appear automatically as a German province."

In Belgium, General von Bissing told me exactly the same thing. "If the relief of Belgium breaks down we can force the industrial population into Germany through starvation and colonize other Belgians in Mesopotamia where we have planned large irrigation works; Germans will then overrun Belgium. Then when the war is over and freedom is given back to Belgium, it will be a German Belgium that is restored. Belgium will be a German province and we have Antwerp—which is what we are after."

That is not all. Removing the men, that the land may be vacant for German occupation, that German stock may replace Belgians, Poles; Serbians, Armenians, and now Rumanians, Germany does more. Women left captive are enslaved. Germany makes all manner of lust its instrumentality.

The other day a friend of mine told me of a man just returned from northern France. "I cannot tell you the details," he said, "man to man, I don't want to repeat what I heard." Some of the things he did tell—shocking mutilation and moral murder. He told of women, by the score, in occupied territory of northern France, imprisoned in underground dungeons, tethered for the use of their bodies by officers and men.

If this is not a piece of the Prussian system, it is the logical product of disregard of the rights of others.

Germany has limited the amount that prisoners may spend to \$15 a week for officers and \$12.50 for privates.

RANCHER IS INJURED ON MOUNTAIN TRAIL

Charles W. Coman of North Citrus avenue met with a painful accident last Saturday afternoon when his automobile, which he was driving, turned completely over, pinning him beneath it. Mr. Coman has been spending some weeks at Forest Home, in the San Bernardino mountains, where he is building a summer cottage, and was driving down to Redlands for more lumber when the accident occurred. Some stone or other obstruction in the road struck the wheel of the machine and jerked the steering wheel out of his hands. The machine turned over, fortunately on the inner side of the road. Mr. Coman was pinned under the machine for fifteen minutes before help reached him. He is badly bruised and suffered severe burns from the gasoline which leaked out of the machine. No bones were broken. He was brought home Saturday evening and is slowly recovering.

GETTING A REAL JOB.

It is entirely probable that every man between eighteen and forty-five in the United States, besides being asked to register with the local draft board, will also be subject to instructions to change his occupation if he is working in what the government believes to be a non-essential position.

In fact, this is at least the second most important reason why the registration has been decided upon. It is not expected that more than a million actual soldiers will be obtained from the huge registration of thirteen or fourteen millions, for the physical disability and dependency exemptions will be very large. Large numbers of men will be drafted and placed in non-combatant positions in the United States and also with the expeditionary forces. But those who are not drafted, including those with physical disabilities and dependencies, will undoubtedly be given the opportunity to get into work with essential industries. There is every indication that this is to be compulsory.

This will mean that women must take the places of men in clerkships, office positions, as solicitors, and the men will get out and harvest crops, or engage in the heavier work where labor is short.

There can be no objection to this compulsory shifting of the labor power. It will be a powerful blow to win the war. It will teach us also, that we have been engaged in many fool things, and it will teach us that, in many cases, we have not been actually earning a living, although perhaps paid well for the occupation of our time.

SPECULATION.

It is announced in the morning papers this week that "some military officials" are predicting that the war will be over in a year. The vagueness of the announcement stamps it as valueless, of course. And any military official who would openly put his name to such a statement would be guilty of a most un military act.

We all remember the ball game, here and there, where the crowd started down out of the bleachers in the last half of the eighth, when one team had a lead of several runs. It has happened in such cases that the bases would fill up and someone would hit the ball a mile, and the game would result in a struggle of eleven innings.

Because of the terrible drubbing that the world has received in this war, there are few people ready to make any predictions as to the length of the war, and there are no predictions coming from the men who are in high and anxious places. The war will be over when the world has been made again a decent place to live in. In fact, a more decent place to live in than before the war. Those are the aims of the allies and of America.

"Keep chopping 'til she falls," is the advice of the old woodsman. If you don't cut the trunk may split right up the middle.

When we get about five million Americans in the fight with the allies, autocracy will begin to lean and crack. She must come down clean and lie flat.

OF ONE MIND.

Covina had a big day, and made a lot of money for the Red Cross awhile ago, and Whittier put on a carnival for three days that was a social and financial winner.

And now comes Pomona, with a big program for the Red Cross on Labor day, in Ganesha park. It will be a good program, judging from the announcements, and there is no doubt but that the whole valley will be there.

The Red Cross is certainly a godsend in this matter of uniting people in a common cause. Strangely enough, it does not seem to matter to the Red Cross whether one is a Presbyterian, Baptist, Methodist, Catholic, Lutheran, Scientist, Episcopalian, or sonabulist, so long as the heart is set on boosting this great organization of mercy. The Red Cross stands for practically every essential that Christ said was necessary, and actually works at the job.

ACROSS THE YEARS.

Apparently as active and full of ginger as any, and certainly as well drilled as any, is a Civil war veteran who is a member of the Covina home guard company.

For two generations we have been meeting annually and speaking of the "fast-thinning ranks of the blue and the gray." Ever since the writer can remember the theme of the Memorial day orator has carried with it the undeniable truth that the heroes of that great conflict of '61 are

"Waiting the hour when latest dark unrolls,
To view the Great Alignment and the Dawn."

And yet, as in Covina, there are men of that great struggle who have shouldered arms when Democracy is again in danger, and if they have not been sent to the front they have at least put themselves in a place where they can release another and a younger man to "carry on." There are men actively at work in the war department today who swarmed up Missionary Ridge, and would do the same thing at Vimy Ridge if they were commanded into battle. There were hundreds of French veterans of '71 who aided in stopping the Hun hordes in that first memorable battle of the Marne.

The fires of youth may grow fainter, but the spirit flames brighter with the years. There can be no death for that man or that country that lives for honor and truth and justice. There was but one fault with the preparation of the Hun for this war. He forgot that God lives, and that He will repay.

COVINA BUSINESS.

Between four and nine o'clock of a Saturday the streets of Covina are lined solid for two blocks with automobiles, and the shops are filled with people, trading. From three to six on nearly any afternoon these days, there are many more people in town than used to be the case.

And it is because the delivery system has been abandoned, also, that people are economizing somewhat on streetcar tickets and gasoline. It no longer seems quite so necessary to make a trip to Los Angeles. There are fewer stores in Covina than several years ago, and there are local authorities who say that more goods are being sold.

As time goes on it is probable that there will be still fewer stores, and the stores will be larger and better stocked and more satisfactory from every standpoint. Covina should be the commissary for all this outlying territory of the valley, and it will be, to a very much larger extent than now, providing that the merchants all make an intelligent and consistent effort to keep the goods the people want, and will let the people know about it.

SCHOOL PRINCIPAL RETURNS FROM CAMPING TRIP

Mr. Ben S. Millikan, principal of the Covina schools, Mrs. Millikan and little daughter returned on Monday from a vacation of three weeks which was spent in a camping trip in the Yosemite and at Lake Tahoe. The trip of fifteen hundred miles was made in Mr. Millikan's automobile. The party went by way of Mono lake to Carson City, crossing from there to Lake Tahoe, and the return trip was made by the coast route and included stops at Oakland, Berkeley, and San Francisco. Four days were spent camping in Yosemite park and four days at Emerald Bay, Lake Tahoe, in which the trout fishing and long hikes were enjoyed to the utmost.

MRS. MARGARET BEAN DIES ON WEDNESDAY

Mrs. Margaret Bean, wife of I. J. Bean, passed away at four o'clock on the afternoon of Wednesday, August 28th, at her home at the corner of Rowland avenue and Barranca street, Covina. The deceased was born in Canada, and would have been seventy-five years old on the tenth of October of this year. She has been a resident of Covina for seven years. The body will be sent to Minneapolis for interment. Funeral services will probably be held on Monday morning in the Custer undertaking parlors.

MONSTROUS IDEA IN GERMAN MIND

Treachery, Murder, Barbarity, Anything, Praiseworthy if for Prussia's Gain.

Abominable System That Must Be Overthrown if the World is to Be Worth Living In, Regardless of the Cost.

This I have seen. I could not believe it unless I had seen it through and through. For several weeks I lived with it; I went all about it and back of it; inside and out of it was shown to me—until finally I came to realize that the incredible was true. It is monstrous, it is unthinkable, but it exists. It is the Prussian system.—F. C. Walcott.

At a conference of field men of the United States food administration held in Washington, F. C. Walcott pictured conditions as he had found them in the countries invaded by German arms. Mr. Walcott served with Mr. Hoover on the Belgium relief commission when this nation was attempting to feed the starving civilian population of Belgium, Poland and northern France. In his address he had pictured such conditions as he said he could not believe unless he had seen the situation through and through, and had lived with it for weeks. He showed these terrible conditions to be the result of deliberate plans on the part of official Germany, and in summing up he said:

"Such is the German mind as it was disclosed to me in several weeks' contact with officers of the staff. Treaties are scraps of paper, if they hinder German aims. Treachery is condoned and praised, if it falls in with German interest. Men, lands, countries are German prizes. Populations are to be destroyed or enslaved so Germany may gain. Women are Germany's prey, children are spoils of war. God gave Germany the Hohenzollern and together they are destined to rule Europe and, eventually, the world—thus reasons the kaiser.

"Coolly, deliberately, officers of the German staff, permeated by this monstrous philosophy, discuss the denationalization of peoples, the destruction of nations, the undoing of other civilizations, for Germany's account.

"In all the world such a thing has never been. The human mind has never conceived the like. Even among barbarians, the thing would be incredible. The mind can scarcely grasp the fact that these things are proposed and done by a modern government professedly a Christian government in the family of civilized nations.

"This system has got to be rooted out. If it takes everything in the world, if it takes everyone of us, this abomination must be overthrown. It must be ended or the world is not worth living in. No matter how long it takes, no matter how much it costs, we must endure to the end with agonized France, with imperiled Britain, with shattered Belgium, with shaken Russia.

"We must hope that Germany will have a new birth as Russia is being reborn. We must pray, as we fight against the evil that is in Germany, that the good which is in Germany may somehow prevail. We must trust that in the end a Germany really great with the strength of a wonderful race may find its place as one of the brotherhood of nations in the new world that is to be.

"The responsibility of success or failure rests now upon our shoulders; the eyes of the world are anxiously watching us. Are we going to be able to rise to the emergency, throw off our inefficiency, and prove that democracy is safe for the world?"

In the above statement Mr. Walcott has described a condition that must be changed if America, if the world, is to remain a "fit place to live in." And the only way by which this change can be effected is the defeat of German arms in this war. Nothing good, nothing but evil, can come out of Germany, so long as the German people are controlled by a military autocracy, and the German people cannot be made to realize this until this autocracy is crushed. The spirit of militarism that has made of the Germans a robber and a murder nation must be utterly crushed if the world is to remain free, and to accomplish this those of us who cannot fight in France must lend our support to our men who are fighting for us.

FLIER IS MADE CHEVALIER

Guynemer's Friend and Pupil Has Seven Victories to His Credit.

Paris.—Sous-Lieutenant Bozon-Verdun, recently made a chevalier of the Legion of Honor, following his seventh officially recorded aerial victory, was the intimate friend and pupil of Guynemer.

He accompanied Guynemer September 11, 1917, when the latter met his fate. His one thought since, it is asserted, has been to avenge the great ace. One of the new chevalier's feats was to shoot down three planes in four hours. He was a cavalryman until transferred to the air service.

THE STAR IN THE WINDOW.

The star in the window, how full is its meaning
Of sacrifice, service, and loyal devotion;
It says to the passer in language heroic,
"We're doing our best to quell the commotion."

We give to our country the best of our treasure,
Our noble young men in their vigor and prime,
To bring to the world deliverance from bondage
And banish the despot who reigns on the Rhine.

Their chair is now vacant, we miss their kind greeting,
We watch for the postman a message to hear;
Our fingers are busy, we pray without ceasing;
We work, save, and plan to send them good cheer.

Few are the homes that fail to contribute
A husband, a brother, a son, or a friend;
And those who have neither to offer for service
Are willing their time and their substance to lend.

We take off our hats to the homes decorated
By the stars in the window, whether many or few,
And pray that true courage and valor be given,
That our boys may sail home as a conquering crew.

May the star in the window prove a beacon of hope,
May it never be tarnished by actions impure,
Till democracy rule and autocracy vanish,
Till righteousness reigns and all are secure.

May the nations of earth quickly yield to the Spirit,
Accept the true Savior and yield to His reign,
Then the sway of the tyrant will never more flourish,
And the stars in the window will not be in vain.

A Prosperous Community

A prosperous community is the result of a great many people in the location being prosperous. If every farmer and salaried man or woman would place in the bank a part of their incomes and if every wage earner would deposit a part of his wages, prosperity for this community would be assured. No financial difficulties could come that would injure the local credit. The bank is the best place for money; because it is organized and equipped for the safe-keeping of money.

Covina Argus Subscription Rates to be Raised

After September 1, 1918, the Price Will Be \$2.00 Per Year

It is scarcely necessary to remind the people of Covina city and valley that all commodities of every kind and nature have advanced, some of them two hundred and three hundred percent. In the newspaper business every kind of material has advanced very materially. Especially is this true of white paper, upon which newspapers are printed. All kinds of printing machinery, ink, type, and printing stock are now almost double in wholesale price.

Daily newspapers all over the United States have doubled the price of cost per copy, as is the case with newspapers of Los Angeles city. There are no longer any one cent papers in Los Angeles. Other San Gabriel Valley papers are raising to the \$2.00 rate.

Yearly paid-up subscriptions expiring on or before September 1, 1919 will be accepted at the old rate, and we will allow our regular subscribers already paid in advance the privilege of one extra year at the old rate, if paid before the first of September, 1918.

Your home newspaper is one of the necessities of the war. We must meet the conditions that arise from the war.

RECEIPTS ARE LARGE FOR BELGIAN RELIEF

The carnival given by the Charter Oak Thimble Club for the French and Belgian relief work at the Charter Oak packing house last Saturday afternoon and evening was a distinct success both financially and socially. The committee in charge of the arrangements, of which Mrs. Walter Boston of Sunflower avenue was the chairman, wishes to thank all those who so generously helped to make it a success. Everyone to whom the committee appealed were most generous in their response, both the business men and others, and the committee and the club are gratefully appreciative.

The net returns for the relief work will total \$396.57.

The address by Charles Farwell Edson, musical composer and critic, and orator of unusual ability, was the big feature of the carnival. The speech by Mrs. W. P. Nye of Covina was also one of the best numbers on the program, which was a fine one throughout.

The various booths and side-shows were centers of attraction, and the dance in the evening was much enjoyed by the young people.

The ladies had on exhibition 540 garments which they had completed for the same good cause to which the proceeds of the carnival are to be given, in the last two months.

HEMPHILL RECEIVES CALL TO ENTER ACTIVE SERVICE

George Bradley Hemphill, son of Mr. and Mrs. G. B. Hemphill of West Center street, who enlisted in the naval reserves in July, received his call to active service last week and left for San Pedro last Wednesday. Young Hemphill, who is only nineteen years old, has always had a strong desire to enter military service and has been especially keen for it since the outbreak of the present war. He yielded, however, to his parents' wishes that he finish his high school course, and was graduated from the Covina high school with the class of 1918. Owing to a recent injury in an accident, from the effects of which he has not entirely recovered, he will enter the yeomanry service for the present. He has had two years of military training and was made petty officer immediately after entering.

POETIC GRATITUDE.

Mrs. J. N. Hurst of San Bernardino Road, who has returned from a stay at the San Jacinto sulphur springs, gives to the Argus these verses, written by a fellow patient at this well known resort, named "Gilman's Relief:"

When the city's mad din rings in on your car,
And you hate all things that once were dear;
You're cross as a bear, and your poor little wife
Feels that all pleasures have slipped from her life—

Take a trip so delightful that when it is o'er
You wonder if ever your feelings were sore.
Where to? Why, to Gilman's—Beyond all relief—
For you're certain of finding there instant relief.

In fact, the best that I've ever seen,
If you are in need of quiet and rest,
You'll find "Relief" the best of the best.
If your nerves are on edge and you're limping in pain,
Or your stomach hurts til you're most insane—
Just come to this place—beyond all belief.
Where to? Why, of course—Just Gilman's Relief.
Alice M. Vincent.

RAISE IN ARGUS RATES AFTER SEPTEMBER 1

As announced in a display advertisement elsewhere in this issue, the subscription rates for the Covina Argus will be advanced to \$2.00 per year after September 1st.

This is made imperative because of the advance in the wholesale cost of all material that goes into the making of a newspaper, including white paper, ink, print-shop machinery, type and labor.

The newspaper and printing business has felt the increase in the cost of living and in doing business, just as has every other kind of business and every individual. Raising of retail prices on all commodities is one of the necessary actions in connection with the war readjustments.

Food Administrator Writes President America Conserved 141,000,000 Bushels Wheat.

CREDIT DUE TO WOMEN.

Meat and Fat Shipments Increased by 844,600,000 Pounds.

Conservation measures applied by the American people enabled the United States to ship to the Allied peoples and to our own forces overseas 141,000,000 bushels of wheat and 844,600,000 pounds of meat during the past year, valued in all at \$1,400,000,000. This was accomplished in the face of a serious food shortage in this country, bespeaking the wholeheartedness and patriotism with which the American people have met the food crisis abroad.

Food Administrator Hoover, in a letter to President Wilson, explains how the situation was met. The voluntary conservation program fostered by the Food Administration enabled the piling up of the millions of bushels of wheat during 1917-18 and the shipment of meat during 1917-18.

The total value of all food shipments to Allied destinations amounted to \$1,400,000,000, all this food being bought through or in collaboration with the Food Administration. These figures are all based on official reports and represent food exports for the harvest year that closed June 30, 1918.

The shipments of meats and fats (including meat products, dairy products, vegetable oils, etc.) to Allied destinations were as follows:

Fiscal year 1916-17... 2,168,500,000 lbs.

Fiscal year 1917-18... 3,011,100,000 lbs.

Increase 844,600,000 lbs.

Our slaughterable animals at the beginning of the last fiscal year were not appreciably larger than the year before and particularly in hogs; they were probably less. The increase in shipments is due to conservation and the extra weight of animals added by our farmers.

The full effect of these efforts began to bear their best results in the last half of the fiscal year, when the exports to the Allies were 2,133,100,000 pounds, as against 1,268,500,000 pounds in the same period of the year before. This compares with an average of 801,000,000 pounds of total exports for the same half years in the three-year pre-war period.

In cereals and cereal products reduced to terms of cereal bushels our shipments to Allied destinations have been:

Fiscal year 1916-17... 259,900,000 bushels

Fiscal year 1917-18... 340,800,000 bushels

Increase 80,900,000 bushels

Of these cereals our shipments of the prime breadstuffs in the fiscal year 1917-18 to Allied destinations were: Wheat 181,000,000 bushels and of rye 13,900,000 bushels, a total of 144,900,000 bushels.

The exports to Allied destinations during the fiscal year 1916-17 were: Wheat 135,100,000 bushels and rye 2,300,000 bushels, a total of 137,400,000 bushels. In addition some 10,000,000 bushels of 1917 wheat are now in port for Allied destinations or en route thereto. The total shipments to Allied countries from our last harvest of wheat will be therefore, about 141,000,000 bushels, or a total of 154,900,000 bushels of prime breadstuffs. In addition to this we have shipped some 10,000,000 bushels to neutrals dependent upon us, and we have received some imports from other quarters.

"This accomplishment of our people in this matter stands out even more clearly if we bear in mind that we had available in the fiscal year 1916-17 from net carry-over and as surplus over our normal consumption about 200,000,000 bushels of wheat which we were able to export that year without trenching on our home loaf," Mr. Hoover said. "This last year, however, owing to the large failure of the 1917 wheat crop, we had available from net carry-over and production and imports only just about our normal consumption. Therefore our wheat shipments to Allied destinations represent approximately savings from our own wheat bread."

"These figures, however, do not fully convey the volume of the effort and sacrifice made during the past year by the whole American people. Despite the magnificent effort of our agricultural population in planting a much increased acreage in 1917, not only was there a very large failure in wheat, but also the corn failed to mature properly, and our corn is our dominant crop. "I am sure," Mr. Hoover wrote in concluding his report, "that all the millions of our people, agricultural as well as urban, who have contributed to these results should feel a very definite satisfaction that in a year of universal food shortages in the northern hemisphere, all of those people joined together against Germany have come through into sight of the coming harvest not only with wealth and strength fully maintained, but with only temporary periods of hardship. "It is difficult to distinguish between various sections of our people—the homes, public eating places, food trades, urban or agricultural populations—in assessing credit for these results, but no one will deny the dominant part of the American women."

A hoarder is a man who is more interested in getting his bite than in giving his bit.

SEND ARGUS TO MEN IN SERVICE...

Because of the recently-issued regulation of the United States government, relative to the conservation of print paper, the Covina Argus, as well as every other publication in the United States, is prohibited from sending copies of the newspaper to the soldiers in camps overseas.

The regulation prohibits all free and sample copies of any kind, and specifically states that free newspapers must not be sent to the men in service.

This makes it necessary for a subscription to be purchased in order that the man in service may get his home paper. There is no doubt but that the home newspaper is almost as eagerly looked for by the soldier and sailor as are letters from the folks at home. The small, intimate home news that is to be found in his old home-town newspaper puts him in touch with everything that is going on. His heart is at home among his people.

CIVILIANS MAY SHOOT ON NAVY RIFLE RANGE

Presenting opportunity for civilians to receive expert training with the rifle, it was announced today that the United States navy rifle range, constructed a mile from San Pedro, is now open to the public.

The range was built under orders from Washington as one of a chain of ranges for the instruction of men in the navy in the use of small arms.

The range has 20 targets and is under the command of Ensign G. E. Wolfe. Fifty expert riflemen are stationed permanently at the range to supervise the shooting.

In announcing that civilians may shoot at the range, Ensign Wolfe stated that rifles, ammunition and expert instruction will be provided free of charge to any one who desires training. The invitation is extended especially for Saturdays and Sundays.

Return From Porterville—

Mr. and Mrs. Sam Aschenbrenner and daughter, Gladys, and Mr. and Mrs. William Aschenbrenner made a trip through the Porterville district, leaving Saturday and returning Monday. While away they were guests of Mr. and Mrs. Bert Blanchard on their ranch near Ducor. On Sunday the party took a drive through Terra Bella, Porterville, Ducor, Worth, and Springville. The trip was made by the Ridge route and the return by Tehachapi.

BEST IN THE LONG RUN

The Submarine is Centuries Old

CONTRARY to common belief, seacraft traveled under water at least 300 years, and probably 3000, before John Holland's submarine.

James I., in 1621, took a submarine trip several miles long, in a submarine invented by Cornelius Van Drebbel. Van Drebbel's craft was a true navigating submersible, made water-tight by greased leather, and propelled by twelve oarsmen, who rowed with oars fitted through water-tight holes in the hull.

Though the submarine in its development has appeared in a hundred fantastic forms, the automobile tire has matched it in freakish inventions.

Goodrich's clear-sighted direction was needed to hold it to principles of usefulness, and produce—

GOODRICH SERVICE VALUE TIRES

Goodrich loyalty to practical service was logical, for Goodrich values tires solely by SERVICE VALUE.

Goodrich judges tires solely by what they do for you on your car and on the road in *easy riding, economy, dependability and durability.*

Therefore, Goodrich, in the twenty-two years it has directed the destinies of automobile tires, has worked and watched to put SERVICE VALUE into its tires. **SILVERTOWN CORDS or BLACK SAFETY TREADS**, and to keep it there.

SERVICE VALUE in tires is in harmony with the thrifty spirit of the times. Be thrifty by demanding Goodrich Service Value Tires.

SUNSHINE DIVISION NOW IN FRANCE

A postcard, released by the government from an eastern camp, received by Mrs. Rosa C. Clarke, announces the safe arrival of her son, Corporal Jack Clarke, "somewhere in Europe." He went across the United States in advance of the main body of the fortieth (Sunshine) division, but newspaper cablegrams recently printed say that the entire division is in France. This comprises about 36,000 men, all of whom have been at Camp Kearny since last summer. They will be re-divisioned, with 27,000 men as the fighting unit, and 18,000 men in the communication lines.

In the same platoon with Corporal Clarke is Sergeant Ralph Smith, son of Mr. and Mrs. W. D. Smith, formerly of Charter Oak. The division was conveyed heavily, and was transported on thirteen of the largest vessels now in the American service. This division contains the old regiments formerly known as the California Seventh of Southern California, the Second of Sacramento, and the Fifth of San Francisco, now known as the 158th, 159th, and 160th, United States infantry. A very large number of the privates of the old regiments went across some time ago, being sent as replacement troops, but the commissioned and non-commissioned officers were retained and kept at the training of draft troops that were brought from Camp Lewis. The personnel of the rank and file of the old regiments has almost entirely changed.

The division sailed on August 7, and arrived about August 22. Corporal Clarke wrote several letters to his mother while the California men were crossing the United States. He says that the westerners were greeted everywhere with great enthusiasm. Red Cross girls threw flowers and supplied them with refreshments. To a lad like Corporal Clarke, who had never seen the east, the trip across the American nation was a wonderful one. Letters from "over there" from Corporal Clarke will be printed in the Argus as they are received from time to time by his mother.

ROY BROWN DIES FROM BATTLE WOUNDS

News of the death of Roy Brown, a young man well known in Covina, where he worked for two years prior to going forward with the American army to France, was received here last week by his uncle, J. Frank Kendall of Kendall's meat market. He was in a machine-gun engagement on the French front, and died of his wounds while being carried to a hospital.

Brown was 22 years old, and the son of Mr. and Mrs. Henry Brown of Northrup, Kansas. He came to the Pacific coast and worked for his uncle in Covina, and for Charles Smith and others. At the time of his being drafted he was working in Pomona. He has other relatives in Pomona, among them being Fred J. Madison and Charles Madison.

The news was conveyed to his relatives through a letter written by his captain, who said, in telling the sad news, that it seemed hard luck that such a brave and valuable soldier had been killed. The captain spoke particularly about Brown's eagerness to go forward in battle, and said that he was an exceptionally valuable man. Mr. Kendall said this week that Mr. Brown was one of the squarest fellows he had ever known, and that he had a host of friends while here. The letter telling of his death was written on July 25, and the death probably occurred a few days previous to the writing of the letter.

SAN DIMAS WILL ENTERTAIN NATIONAL Y. M. C. A. WORKER

The county Y. M. C. A. offers a treat to the workers with boys in Covina. Eugene C. Foster of New York City, international Y. M. C. A. secretary for boys' work, will attend a dinner given in his honor at San Dimas on Tuesday, September 3, at 7 o'clock, at the union church. Covina is allowed a delegation of fifteen men for this occasion. Mr. Foster will discuss the problems of the American home, church and school in their relation to boys.

Tickets and information about transportation can be secured of W. P. Nye. A "home-cooked" meal of ample proportions will be served and all male teachers in public and Sunday schools, scout masters, ministers and other workers with boys are invited to come.

ECONOMY TO PURCHASE NEW CARS, SAYS AGENT

Harry R. Webber, sales manager for the Overland agency of the Covina Garage & Machine Shop Association says this week that there is every indication that buying new cars is more economical than an attempt to repair old cars. He believes that it fits in with the government program better than attempting to renew old parts, especially as garage work is getting to be very expensive.

The government has provided for an output of a certain number of passenger cars, and the local agency is getting its share of the popular Overlands.

CONFERENCE COMING FOR CHILD WELFARE

Covina is planning for a two days' "Welfare Conference," to be held in the Red school building on September 9th and 10th. Mrs. F. B. Gillette, the local chairman, has selected a committee consisting of one woman on each street to assist her. Every mother of children less than six years of age is invited to bring the children to the school house on those days, in the morning if possible. The local doctors and nurses will be assisted by doctors and nurses from Los Angeles. Besides the help of the advice of doctors and nurses, there will be on exhibition a number of charts which will be very interesting and helpful to every mother.

With the slogan, "Help save 100,000 babies during the second year of the war—get a square deal for children," the various cities of the county are meeting with success in the children's year program. As this is a war measure, responsibility for the work of children's year is placed with the women's committee of the county council of defense.

Pasadena has just completed a successful child welfare week, weighing and measuring babies and giving food demonstrations and talks on child welfare.

The national chairman is Miss Julia Lathrop; the state chairman, Dr. Adelaide Brown. The California state program includes a year's campaign on birth registration; the more intelligent use of the clean milk law, and the establishment of children's health centers.

The ideal for the county will be a permanent community health nurse for every 1500 school children in a given district to work in and out of the school under the direction of the health officer. Emphasis is marked as to the necessity of better prenatal guidance given to mothers by the distribution to all women enrolling of a series of letters.

The county plan includes a health officer who shall be a woman physician in charge of children's bureau work in the county health office, and permanent centers for children's work wherever needed.

It is pointed out that tact and friendliness are two essential points. All children born during the year are to be visited. This is irrespective of social status. A complete record is made on a card provided for the purpose. The names of all unregistered babies will be secured. Within one year after birth every child must be registered. Babies will be weighed and measured.

By these means it is hoped to save the lives of hundreds of babies. In the foreign sections, and particularly among the poorer classes, the death rate has been very heavy. Children's year work will, in a large measure, safeguard the lives of babies in the critical age.

Midsummer Wedding at Charter Oak Home

Miss Vernie Johnson, daughter of Mr. and Mrs. W. T. Johnson of Charter Oak, and Mr. Carmel O. R. Kring were married Saturday evening, August 24, at the home of the brides' parents on East Center street in Charter Oak, in the presence of about sixty-five friends and relatives.

The house was elaborately decorated with pink and white carnations and ferns and the ceremony was performed under a large arbor beautifully trimmed with flowers and ferns.

Reverend George Chamberlen, pastor of the Brethren church, officiated, and just before the wedding party entered, Miss Gladys Johnson, sister of the bride, and Miss Mabel Funk sang "Faithful As the Stars Above." Mrs. Leroy Smith of Los Angeles played Mendelssohn's wedding march as the bride and groom, accompanied by Miss Vinnie Johnson, sister of the bride, as maid of honor, and Mr. Elmer Overholzer, as best man, passed through the aisle of ferns. After the ceremony, dainty refreshments which carried out the color scheme of the decorations, pink and white, were served.

The bride was attired in a gown of white taffeta and georgette crepe with a bridal veil, and carried white carnations, a bridal veil, and carried white carnations of honor wore a gown of green tulle over apricot satin and carried a bouquet of Queen Maria roses.

The groom is a son of Mr. and Mrs. U. G. Kring of First street, Covina. The wedding is the culmination of a romance of three years which began when they were students together in the Covina high school, where they both were popular students and the groom was prominent in athletics. After a short honeymoon spent at the seashore, the young couple will be at home to their friends at the Willoughby apartments in Covina.

Miss Luella Austin is visiting Miss Mildred Bleecker in Sierra Madre this week.

Mr. and Mrs. Harry Gordon and family and Miss Grace Austin had a delightful day at Forest Home on Tuesday.

Automobile Owners ATTENTION!

Bookkeeping costs money. Bad debts are a tax on business which must be made up in some way, and are in practice paid by the good customer. In order to run on such a basis, business must have a larger margin of profit. In these strenuous times we have no labor to spare in unnecessary bookkeeping and no money to lie idle in over-due and slow-pay accounts. Therefore, on

September 1st

The undersigned, Covina members of the Pomona Valley Auto Trades Association, acting upon request from the government, will inaugurate a cash policy.

We Will Go on an absolutely CASH BASIS

The reliable customer has everything to gain and nothing to lose by paying cash. The customer who is not reliable can no longer be a burden on the man who is, in so far as this business is concerned. The saving made possible by this rule will enable us to give you better service in all lines. Our action complies strictly with the request of the War Economy Board of the Council of National Defense for the purpose of releasing labor for government work. On and after September 1st

1. We will Discontinue All Unnecessary Inspections.
2. All Parts, Accessories, Repairs and Labor will be C. O. D.

We trust you will see the necessity for this rule and accept it in the spirit in which it is intended. By thus deferring the time limit no hardship will be worked on anyone and not only the automobile trade but the public at large will be benefited.
